**How It Works**

**4 Step Process**

- **Register interest**
  Fill a form giving details of your organization’s technology/data needs, vision and plans.

- **Evaluate your needs**
  We evaluate your needs, organization strategy, and the challenges with respect to technology and share on a proposal.

- **Engagement**
  A seasoned technology professional is embedded within your organization and spends 10 – 20 hours a week on the engagement goals.

- **Exit**
  Once goals of the engagement are met, the person exits from the organization by ensuring a continuity plan (process, structure and tech capacity).

**Fractional CxO** is a technology, data and tech strategy assistance program - to assist NGOs with a combination of their technology strategy, technology/data needs by placing a seasoned technology professional at the NGO for 3 – 9 months.
